

### LALIZAS Lifebuoy Rings

**Step 1**

Stand back from the edge / Stand back from the rails (when on board). Shout and attract the person's attention.

**Step 2**

Look for the nearest lifebuoy ring.

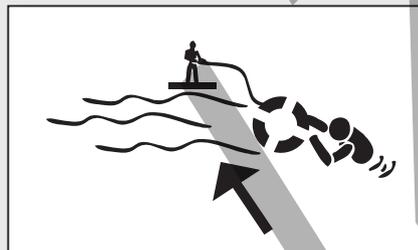

**Step 3**

Stand on the end of the rope or hold it in your hand.

**Step 4**

Holding the lifebuoy ring, swing back, then release forward with an under-arm throw.

**Step 5**

Aim to land the lifebuoy ring close to the person, so that the lifebuoy ring can be pulled into their grasp.

**Step 6**

Advise the person to hold the lifebuoy ring and slowly pull them to land/get them back on board.

#### Notes:

- Keep it on a visible & easily accessible place on board/ at the marina
- Keep it away from any materials that could erode the lifebuoy ring

#### Warning

Flotation devices only reduce the risk of drowning. They do not guarantee rescue.
